# Brief Introduction

---

At MEC Industry, we provide expert laser cutting and metal fabrication services to a diverse range of industries, serving both B2B and B2C clients. Our commitment to delivering exceptional quality remains unwavering, regardless of project size or complexity. As an ISO 9001:2015-certified company, we adhere to the highest standards of excellence in every facet of our operations.

Our advanced cutting technology ensures that we consistently deliver results of exceptional quality. Thanks to our state-of-the-art equipment, we guarantee not only precise and accurate work but also rapid completion times. This enables us to offer competitive pricing without compromising on quality, positioning us as one of the leading laser cutting and fabrication companies in the region.

# Company History

MEC Industry was born out of a passion for precision engineering and a vision to revolutionize the metal fabrication and laser cutting industry. Our journey began with a commitment to deliver innovative solutions that meet the evolving needs of our clients.

Founded by a team of seasoned professionals with extensive experience in manufacturing, MEC Industry set out to create a company that prioritizes quality, reliability, and customer satisfaction. From our inception, we have focused on harnessing cutting-edge technology and industry best practices to provide our clients with top-notch services that stand out in a competitive market.

Over the years, we have built a reputation for excellence, working across diverse sectors including automotive, aerospace, construction, and more. Our dedication to continuous improvement and innovation has allowed us to stay ahead of industry trends, ensuring we provide the most efficient and effective solutions tailored to each client's unique requirements.

At MEC Industry, we believe that our success is rooted in the success of our clients. We take pride in fostering long-lasting relationships, understanding that collaboration is key to achieving remarkable results. Every project we undertake is treated with the utmost care and attention, no matter the size or complexity.

# Vision & Mission

## Vision

Our vision is to be a leader in the metal fabrication and laser cutting industry, recognized for our commitment to quality, innovation, and customer satisfaction. We aspire to set the standard for excellence, driving advancements in manufacturing processes and sustainability.

## Mission

Our mission is to provide innovative and high-quality metal fabrication and laser cutting solutions that empower our clients to achieve their goals. We are dedicated to excellence in every aspect of our work, fostering long-term relationships built on trust and collaboration.

# Why MEC

---

## Full Material Traceability

---

We retain material certificates for all of our material and offcuts using a system developed in house to ensuring you always know where the material used came from and that it meets your specifications

## Friendly Material Handling

---

We make sure to use every piece of material and minimise wastage. We ensure that only material skeletons are sent for recycling as a last resort.

## Short Lead Times

---

The majority of our work is referred to as “just in time” due to its nature. We understand that as a client orders and requirements tend to be finalised in the last moment often there is little time left for actual production.

## Quality Assured

---

Our ISO9001 accreditation means our quality controls are externally and independently audited to ensure we are doing what we say we are doing.

# Meet The Team

---

## MOHAMMED IMADUDDIN

*Co-founder & Director of  
Operations*

Dynamic and results-oriented Director of Operations with extensive experience leading operations, optimizing processes, and fostering innovation across high-demand sectors including aerospace, automotive manufacturing, architecture, military and defence, shipyard construction, oil, gas, and offshore industries.

With a robust background in mechanical and industrial engineering, Imad is committed to driving operational excellence and delivering exceptional value through quality management, strategic partnerships, and cutting-edge technology solutions.

# Meet The Team

## SYED ZEESHAN ALI

*Co-founder & Director of  
Business Development*

Strategic and client-focused Director of Business Development with a proven track record of driving growth and expanding market presence in high-stakes industries. At MEC, Zeeshan specialises in crafting and implementing growth strategies that align with client needs across diverse sectors.

With a commitment to excellence and a background in international business development, Zeeshan is passionate about building MEC's reputation as a premier engineering and manufacturing partner across diverse sectors.

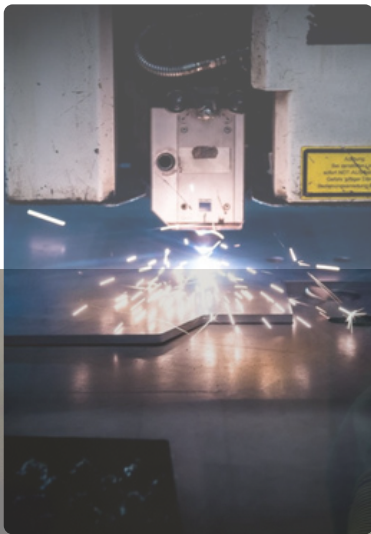

# Our Services

We specialize in producing high-accuracy components using advanced technology, handling both small and large-scale projects with precision and efficiency.

We offer expert consultancy to enhance business operations and provide continuous technical support to keep systems running smoothly.

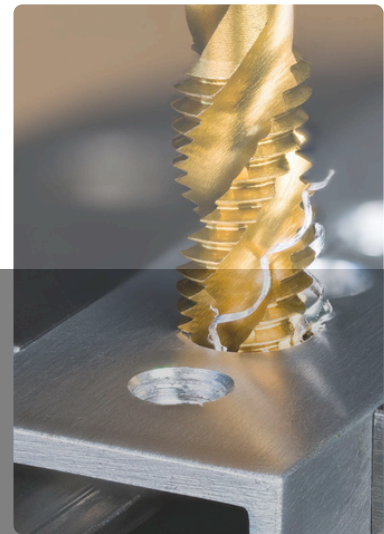

Our team provides tailored engineering solutions to address unique challenges, from system design to process optimization.
